10 CENTS PER WEEK

WILL BE BURNED

Infuriated Mob Captures One and Corral Thirteen Negroes in Louisiana.

HE KILLED A PLANTER

The Murdered Man Was Engaged to a Popular Young Lady in Louisville. Murderer Will Be Burned.

THE OTHERS WILL BE HANGED AT ONCE

Shreveport, La., June 13.—The city is in the greatest excitement. Two miles from town, in Killbuck's store, are corralled thirteen negroes who are charged with complicity in the murder of John Gray Foster, a wealthy planter, who was murdered a day or two ago, and they will all be hanged.

The store is surrounded by a throng and infuriated citizens, and nothing can prevent the capture of the murderers.

Prince Edwards, Foster's murderer, was surrounded in a swamp at 11 o'clock this morning, and will be burned when captured.

The dead man was one of the wealthiest and most popular men in this section, and was engaged to marry Miss Feltz, daughter of a Louisville preacher.

A dispatch from Memphis states that Governor McMillin and wife, the latter a sister of the murdered man, who had been here attending the funeral, have just returned, and that Mrs. McMillin, who was so prostrated over the murder of her brother and the threatened lynching of the murderers, can go no further, and is very ill at the Peabody hotel.

The governor refuses to leave her bedside a moment.

HOOKED BY A COW.

NARROW ESCAPE OF A SMALL BOY ON SOUTH THIRD STREET.

Joe, the six year old son of Mrs. M. Parola, of South Third street near Norton, was hooked by a cow this morning about 10:30 o'clock and badly hurt. He was playing in the street when the cow attacked him, knocking him down and painfully hurting his left arm and hand. He narrowly escaped being trampled to death. Accidents of this sort are very unusual, as the town cows are usually, so busy eating people's flowers and shrubbery that they have little time to devote to such diversions as hooking little boys.

WANTS TO DIE.

MRS. ROSA MILTON CAUSES TROUBLE IN FIRST WARD.

Mrs. Rosa Milton, who lives at the foot of Fifth street, has been causing considerable trouble for the past several days by her strange and sometimes violent action. Her husband claims she was once in the asylum, and seems to be again losing her mind and last night the police had to be called to take charge of her. She threatens to kill her husband and herself.

After finding her wandering about near the incline and turning her over to the police, she was taken home, where she seemed to get better. If she does not improve she will be sent to the asylum.

WELL KNOWN FARMER.

MR. JAKE FONDAR DIED AT HIS HOME IN THE COUNTY LAST NIGHT.

Mr. Jake Fondar, the well known farmer residing about seven miles out on the Lovelaceville road, died of general debility last night at 9:30 o'clock at his home. The deceased was 83 years of age at his death and was one of the best known farmers of this section. He leaves many relatives to mourn his loss.

The funeral was held this afternoon at 4 o'clock, interment at the family burial ground.

SPECIAL TRAIN.

J. T. WALLACE PASSES THROUGH FOR CHICAGO.

Second Vice President Haskins's Statement—The News Today in Railroad Circles.

Mr. J. F. Wallace, father of Superintendent H. U. Wallace of the Louisville division and Assistant General Manager of the Illinois Central railroad passed through the city last night on a special about 7:30 on route from the south to headquarters in Chicago. He has been on a southern business trip and did not stop over at this city any longer than was necessary in transferring his train across the Ohio river.

Master Mechanic Bartow has returned from Louisville.

Vice President Haskins, of the Illinois Central, has notified the executive officers of connecting lines that after further conference with the officers of the Southern Railway, he has decided not to accept, for the present, at least, the decision of the controller of the treasury that all accounts with the war department for the transportation of troops must be settled on the basis of party rates. The government will be asked by the Illinois Central for an opportunity to make a special representation of its case.

The "Hood Roads" train on the Illinois Central is now building a sample mile of road at McCoub City, sixty miles south of Jackson, Miss. It will start north in a couple of days.

Farm Laborers in Sweden.
There is a special class of farm laborers in Sweden who are given so many acres of land for their own use in consideration of so many days' labor during the year for the owner of the farm. They are a sort of future to an estate, and their like exists in no other country.

POLICE DOINGS

The Cases Against Mechanicsburg Toughs Continued Until Monday.

THE WOMEN HAVE SKIPPED

George Wright Confessed He Tried to Kill His Wife and Ben Doolin—Woman Held to Answer.

SEVERAL OTHER CASES TRIED TODAY.

Judge Sanders had a large crowd and a large docket this morning. The principal case was against John Gaynor, John Hulger, Boone Sears and Frank Eich, Minnie Gaynor, Frankie White and Mary Eich, charged with rape, conspiracy to rape and detaining a woman. Hulger is charged with rape.

As stated yesterday the warrants were issued at the instance of Edith May Headley, a thirteen year old girl, who claims the crowd persuaded her to start to a "party" Monday night and then forced her to accompany them to a skiff to Livingston Point on a carnival that lasted a night and a day.

The women, it is understood, have left the city. None have been arrested, and it is reported they crossed to Illinois and have probably gotten far away by this time.

The young men belong to the toughest of Mechanicsburg's tough element. Several of them have been in trouble before. The commonwealth, however, seems to think that it will be a hard matter to convict them in this case, as the only witnesses of consequence is the girl herself, and to offset her testimony all the crowd will probably swear exactly the opposite. Hulger and Gaynor are already under indictment in circuit court for robbery.

The cases were called this morning by Judge Sanders and continued until Monday. After Dr. Griffith's examination of the girl, City Physician Sanders also made an examination and the evidence of both, it is said, will be calculated to show that it was not the girl's first experience in immoral conduct.

Another case that aroused much interest was that against George Wright, colored, charged with malicious assault in two cases, one for assaulting his wife, Tennie Wright,

with an axe, and the other with attacking Ben Doolin, colored, with an ax near Fifth and Clark streets. The Wright woman was charged with maliciously shooting at her husband and she and Doolin with immorality.

Wright testified that he had suspected the intimacy of his wife with Doolin, and found them together Sunday night. He admitted that he intended to kill them both, and all that prevented him was that he couldn't get in a good lick with his axe.

The woman claimed that Doolin went three to take her to church but she was afraid Wright would catch them on the way and kill them both, as he had threatened to do, and since Doolin remained at her house until 5 o'clock in the morning. The court fined Wright one dollar and costs in each of the two breaches of the peace and held the woman to answer for malicious shooting and fined her and Doolin \$20 and costs for immorality. Wright frankly informed the officers that he will kill them both yet and then the law can do with him what ever it wants to. The woman in the case is a very large woman, and seems to be afraid of her husband. Doolin's mouth is badly cut and swollen from his contact with the ax.

Frank Gilbert, colored, and Tom Burrell, were fined \$2 and costs each for a breach of ordinance and indecent exposure respectively.

A case against John Hamilton, colored, charged with stealing a ring last January, was dismissed and John did a cake walk out of the court room in the embrace of his happiness.

Enoch McGathay, a negro of Bell's Station, Tenn., was charged with robbing a negro named Walter Clark, from Marshall county, of \$16 dozen near Ward's saloon Monday. It seems he and a negro named Hodge tried to "skin" another negro by some sort of a string trick, and when he pulled out his money to bet, Hodge grabbed it and gave it to McGathay, who ran and was subsequently captured. He had seven dollars of the money but Hodge escaped and is still at large. McGathay claimed in his testimony that he and Hodge and the other negro were "letting." He was held to answer in the sum of \$300 and in default of bond went to jail. Clark was very anxious to get his \$16 but the court ordered it held until circuit court.

TWO ARE NOW OUT

Candidates Who Want to Be Meat and Milk Inspector For Paducah.

DRS. WARNER AND HESSIG

The Council Will Elect the Gentleman Who Is to Give Us Good Meat Next Monday Night.

THERE MAY BE OTHER CANDIDATES

There are two probable candidates for the newly created position of meat and milk inspector of Paducah. They are Dr. U. G. Warner and Dr. H. T. Hessig. One is a veterinary surgeon and the other a practicing physician, and both are well known in Paducah. Dr. Warner is already an applicant.

Until today there were no applicants for the place, but it is probable that before Monday there will be others besides the two mentioned.

The ordinance providing for the meat and milk inspector was given final passage Monday night, and the inspector must be elected some time this month.

The ordinance passed is the same as that read before the council, and provides two different kinds of inspection, which may cause some confusion to the inspector in the discharge of his duties, if any of the butchers are inclined to fight it. All meats slaughtered in this county have to be inspected on foot, and in other counties after it has been brought here dressed.

It is claimed by some that this is discriminating in favor of non-residents, but it is probable, and it is claimed by some of the authorities that none of the butchers can afford to fight it by allowing themselves to be warranted for a violation of the ordinance.

The inspector will enter into his duties immediately after qualifying Tuesday.

BIG RAIN.

ALMOST A WATER SPOUT NEAR SHARPE, MARSHALL COUNTY.

The heaviest rain in years fell to Marshall county last evening about 8 o'clock in the vicinity of Sharpe. The cloud burst washed away fences and crops, according to reports, and swept away culverts that had withstood the heaviest rains of years.

SHOOTING SCRAPE

BOYS FALL OUT AND ONE ATTEMPTS TO SHOOT THE OTHER.

A Pistol Is Fired and Then the Fight Begins—Shed After Them.

The Herald of Metropolis, reports that a few days ago a shooting scrape occurred in Kentucky back of the ferry landing, opposite Metropolis. A man named Williams and his wife had been living apart and one son living with each. The brothers learned to hate each other and when they met they quarreled, the younger drawing a pistol and firing. They had clinched and the bullet burned them both. The older brother then took the pistol away from the other and firing it into the air until it was empty, proceeded to give him a sound thrashing. A deputy sheriff was looking for them yesterday.

TAKE SMALLPOX TO A NEGRO SETTLEMENT IN THE COUNTY.

Dr. Frank Boyd was called to the county today to examine reported cases of smallpox and found that the disease had broken out in the family of Joe (Irace, colored, near the river, west of Maxon's Mill, in a small negro settlement.

A negro who escaped from the pest house here took it out there, and it

has gone through the entire family. There is little danger of its further spread, but the health authorities say that the negro should be arrested and punished for running away with a fully developed case of the disease.

A DAILY THOUGHT.

"Vigorous health enables you to take a firm grip on life."

"You'll pay to hurry" is the watchword of some of the gang at Frankfurt. They are announcing for state office rather early.

A Topeka, bank cashier committed suicide because a shortage of \$8,000 was discovered. Cashiers ought to make good newspaper managers. They always collect in advance.

The National Editorial Association is in session at Buffalo, with hundreds of delegates in attendance. The papers of the country, however, are appearing with their usual regularity.

A Henderson county man has been sentenced to twelve days in jail for stealing a dog. If the dog was worth what the owner claimed, there are doubtless a great many thieves who would like to steal about a car load at that price.

Emilio Zurlana has proclaimed himself Against-Mo's successor in the Philippines. When he starts his spectacular performance he is liable to find himself in about the same fix that his predecessor is in now. Emilio is a poor joker.

A Chicago boy was ordered by a court taken from his parents because they had treated his sprained ankle with the Christian Science tincture and his leg shrank until it was much shorter than it really ought to be. The victim in this case reversed the usual order. In most cases the leg is pulled until it is abnormally long.

The Cuban constitutional convention has declined to reconsider its action on the Platt amendment, but will probably adopt a substitute embodying the amendment as passed by congress. The Cubans think there are more ways than one to kill a dog, and the United States doesn't care particularly so long as the dog is killed.

The latest official life insurance statistics show that in 1890 the amounts distributed to 6200 cities of United States and Canada was \$778,590,876. One hundred and sixty-seven offices received more than \$100,000 each, and nineteen cities more than \$1,000,000 each. The amount paid out in southern states shows an encouraging increase, the payments being \$20,000,000, one million more than the preceding year.

Dr. Alexander Dowle has advanced a peg or two. A few days ago he thought he was Elijah, but now he is certain. He called a meeting of his elders, overseers, deacons and whatnot, and by a vote of 249 to 5 it was decided that he was Elijah without doubt. After deciding to flip a coin to decide if he was Elijah or not, the elders, overseers, deacons and whatnot, the meeting adjourned. If Dowle is any Biblical character at all, he has left the genus that made Balaam famous.

The Democratic press has begun to ascribe to President McKinley's denial of any desire to serve a third term as president to "politics." They want to make it appear that while he officially and formally disclaims any intention to run again, he really would not be averse to it. Those who know President McKinley fully realize that this is not his way of doing things, and the reason he noticed the rumor at all, and took the trouble to publicly express his views, according to men high in administrative circles, was that he wanted the public mind

clearly instantly of even the suspicion that it was his desire or intention to seek or accept a third term nomination, and thus destroy at its inception the consequent antagonism that might confront the administration in the disposition of paramount questions now before the people, or which might hereafter arise. The denial is clear, dignified, and in every way characteristic of the man. While the Republican party must needs bow in deference to the president's will, it is nevertheless the opinion of many of the party leaders that there is nothing wrong in a man's being nominated for a third term if the leaders choose to nominate him, and nothing wrong in serving a third term if the people want, and elect him. It is a matter, however, governed entirely by individual opinion.

MORNING FIRE.

WHISKEY HOUSE OF M. KAHN DAMAGED BY A BLAZE THIS MORNING.

The fire department was called to the wholesale whiskey house of M. Kahn this morning about 4 o'clock by a dangerous blaze in the second story. The fire was put out in a short time, but it is estimated there was about \$1,000 damage to the building and stock by fire and water.

The blaze originated in the setting of the second story, and Chief Woods could not tell how it started. There were no wires in that part of the house, and the only cause by which it is explained is spontaneous combustion. The building is owned by Mr. Jacob Well and the loss in both building and stock is covered by insurance.

WHAT CAUSES DEAFNESS.

The Principal Cause is Curable but Generally Overlooked.

Many things may cause deafness, and very often it is difficult to trace a cause. Some people inherit deafness. Acute diseases like scarlet fever sometimes cause deafness. But by far the most common cause of loss of hearing is catarrh of the head and throat.

A prominent specialist on ear troubles gives as his opinion that nine out of ten cases of deafness is traced to throat trouble; this is probably overstated but it is certainly true that more than half of all cases of poor hearing were caused by catarrh.

The catarrhal secretion in the lungs and throat finds its way into the Eustachian tube and by clogging it up very soon affects the hearing and the hardening of the secretion makes the loss of hearing permanent, unless the catarrh which caused the trouble is cured.

Those who are hard of hearing may think this a little far fetched, but any one at all observant must have noticed how a hard cold in the head will affect the hearing and that catarrh if long neglected will certainly impair the sense of hearing and ultimately cause deafness.

If the nose and throat are kept clear and free from the unhealthy secretions of catarrh, the hearing will at once greatly improve and anyone suffering from deafness and catarrh can satisfy themselves on this point by using a fifty cent box of Stuart's Catarrh Tablets, a new catarrh cure, which in the past year has won the approval of thousands of catarrh sufferers as well as physicians, because it is in convenient form to use, contains no cocaine or opiate and is as safe and pleasant for children as for their elders.

Stuart's Catarrh Tablets is a wholesome combination of Blood root, Onalacel, Eucalyptol and similar antiseptics and they cure catarrh and catarrhal deafness by action upon the blood and mucous membrane of the nose and throat.

As one physician aptly expresses it: "You do not have to draw upon the imagination to discover whether you are getting benefit from Stuart's Catarrh Tablets; improvement and relief are apparent from the first tablet taken."

All druggists sell and recommend them. They cost but fifty cents for full sized package and any catarrh sufferer who has wasted time and money on sprays, salves and powders will appreciate to the full the merit of Stuart's Catarrh Tablets.

Perils for Little's Hair.
Young girls in London are wearing
strings of pearls twisted in and out of
loosely massed coils of hair, and both
coral and turquoise beads look pretty
worn in the same way. Flippant boys
of satin or velvet ribbon are worn,
placed in front of the knot or a spray
of flowers, a single spray of holly,
with its red berries, or a full-blown
rose, all give a pretty touch to the
coiffure. Older women are wearing
quaint combs and pins in their hair,
thickly jeweled or treated with parti
nouveau enamel, which serves to in-
troduce a touch of rich coloring.

The Revoltion of 1848.
In March, 1848, I had to go over to
Paris to finish up some work there and
just came in for the revolution. From
my windows I had a view of all that
was going on. I well remember the
pandemonium in the streets, the
aspect of the savage mob, the wanton
spree of shots at quiet spectators, the
boasting of Louis Philippe's nankeen
trousers on the flagstaff of the Tuil-
eries. When the bullets began to come
through my windows, I thought it time
to be off while it was still possible.
Then came the question how to get my
box full of precious manuscripts, etc.,
belonging to the East India company,
to the truth.

The only railroad open was the line
to Haize, which had been broken up
close to the station, but farther on was
intact. In order to get there we had
to climb three hair-raising, I offered
my concubine 5 francs to carry my box,
but his wife would not hear of his
risking his life in the streets. Ten
francs, the same result. But at the
sight of a Louis d'or she changed her
mind and, with an "Alles, mon ami;
adieu, toujours," dispatched her hus-
band on his perilous expedition.

Arrived in London, I went straight
to the Prussian legation and was the
first to give Hansen the news of Louis
Philippe's flight from Paris. So even
a poor scholar had to play his small
part in the events that go to make up
history.-Max Muller's Autobiography.

Montezuma's Well.
One of the most pleasing natural
curiosities in the territory of Arizona
is the pool of water known as Monte-
zuma's well. It is situated 15 miles
northwest of the old abandoned mili-
tary post known as Camp Verde. It is
250 feet in diameter, and the clear
pure water is about 50 feet below the
surface of the surrounding country.
Some years ago certain military offi-
cers sounded the pool and found that
it had a uniform depth of 80 feet
except in one place, apparently
about six feet square, where the sound-
ing line went down about 500 feet
without touching bottom.

The well empties into Beaver creek
only about 100 yards distant, the water
gushing forth from the rocks as
though it were under great pressure.
This well is undoubtedly supplied from
subterranean sources, possibly through
the hole formed by the army officers
years ago. The sides of the well are
boneycombed with caves and tunnels,
permitting alighters to descend to the
water's edge.

Montezuma's well contains no fish.
The flow of water from it is the same
throughout the season. Popular opin-
ion has attributed the origin of the
well to volcanic action, but the rock
surrounding it is limestone. It is more
than probable that the action of the
water is responsible for its creation.-

requested to be present.

The Y. M. C. A. boys are out for
their picnic today and no doubt will
have a pleasant time.

EXCITEMENT.

**SEVERAL NEW CASES SMALLPOX
IN MARSHALL COUNTY.**

One Family Is Guarded and Medicine Is
Left Near the House by the
Doctor.

There is additional excitement re-
ported in the vicinity of Sharpe, Mar-
shall county. The family of Mrs.
Peezor, near that place, is stricken
with smallpox, according to reports,
and the new cases number six.

The attending physician does not
go to the house, but leaves the medi-
cine in a convenient place and it is
taken to them by H. M. Wade, who
has been deputized to guard the house
and prevent anyone going there or
leaving.

The county a few days ago ap-
propriated \$500, with which to construct
a pest house, and while the form of
disease is very mild, the alarm in
some sections is nevertheless great.
